

Programme Outcome: B.A. (Hons) in Political Science

The **Bachelor of Arts (Honours) in Political Science** program is designed to provide students with a comprehensive understanding of the theoretical, institutional, historical, and contemporary dimensions of political life at national and global levels. Through a progression of structured learning from foundational concepts to advanced political thought and comparative analysis, the program aims to develop critical, analytical, and practical skills among students.

By the end of the program, students will be able to:

PO1: Foundational Knowledge and Conceptual Clarity

- Grasp core concepts of political science including state, liberty, rights, justice, and sovereignty.
- Understand the nature, scope, and significance of political theory and practice.
- Demonstrate knowledge of both Western and Indian political thought and traditions.

PO2: Constitutional and Institutional Understanding

- Comprehend the structure, principles, and functioning of the Indian Constitution and democratic institutions.
- Critically evaluate the functioning of the legislative, executive, and judiciary.
- Understand constitutional rights, duties, and emerging governance challenges.

PO3: Analytical and Comparative Skills

- Analyze comparative political systems and processes using historical and institutional perspectives.
- Assess differences in electoral systems, federal structures, and party dynamics across countries.
- Apply comparative methods to evaluate global and national political developments.

PO4: Public Administration and Policy Insight

- Acquire knowledge of public administration principles, models, and reforms.
- Understand the policy-making process and assess public service delivery mechanisms.
- Analyze financial administration, decentralization, and welfare governance structures in India.

PO5: Global and International Awareness

- Develop insights into global politics, international relations theories, and institutions.
- Analyze contemporary global challenges such as terrorism, migration, nuclear proliferation, and geopolitical rivalries.
- Understand India's foreign policy and its strategic international relations.

PO6: Philosophical and Ideological Engagement

- Evaluate classical and modern political philosophy to understand ideological foundations of political systems.
- Critically examine ideas of key thinkers like Plato, Aristotle, Hobbes, Locke, Rousseau, Marx, Gandhi, and Ambedkar.
- Understand the role of values, ethics, and ideologies in shaping political institutions and behavior.

PO7: Democratic and Civic Competence

- Cultivate democratic values, citizenship awareness, and constitutional morality.
- Reflect on social justice, human rights, secularism, and participatory democracy in theory and practice.
- Engage critically with issues affecting marginalized and underrepresented groups.

PO8: Research, Communication, and Career Readiness

- Develop the ability to frame and articulate coherent political arguments both orally and in writing.
- Use interdisciplinary methods to study political behavior and policy processes.
- Prepare for careers in civil services, academia, journalism, NGOs, public policy, and international relations.
